Art Unit: 1626

Receipt is acknowledged of the preliminary amendments filed July 23, 2003 and January 12, 2004, the information disclosure statement filed November 3, 2003 and the responses filed July 6, 2004 and November 22, 2004, which have been entered in the file.

Applicant's election with traverse of Group I, claims 1 to 5 and claims 19 to 21 and 25 in part and Example 8 in the replies filed on July 6, 2004 and November 22, 2004 is acknowledged. The traversal is on the ground(s) that it would not be an undue burden to search all of the claims. This is not found persuasive because it would be an undue burden on the examiner and the patent office resources to search all of the claims as separate patent, literature and computer searches would need to be done.

The requirement is still deemed proper and is therefore made FINAL.

Claims 6 to 18 and 22 to 24 and claims 19 to 21 and 25 in part stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the replies filed on July 6, 2004 and November 22, 2004.

The first sentence of the specification should be amended to include the patent number of the parent application.

Art Unit: 1626

Claims 19 to 21 and 25 are objected to because of the following informalities: the claims contain non-elected subject matter. Appropriate correction is required.

The first sentence of the specification should be amended to include the patent number of the parent application.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 to 3 and 19 to 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Webber et al. (Chemical Abstracts, 131:45107, 1999), cited.

The reference discloses the claimed compounds and pharmaceutical composition wherein R^{a1} is substituted heterocycloalkyl, R^b , R^d and Z^1 are hydrogen, R^c is $-CH_2CH_2C(O)NH_2$ and Z is $-C(O)OCH_2CH_3$. Note Registry Numbers 227613-15-2, 227613-17-4, 227613-18-5 and 227613-19-6.

Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The references made of record and not relied upon show the state of the art.
